Printer setup	2-3
Link with DolphinPOS APP	4-8

## Printer Setup

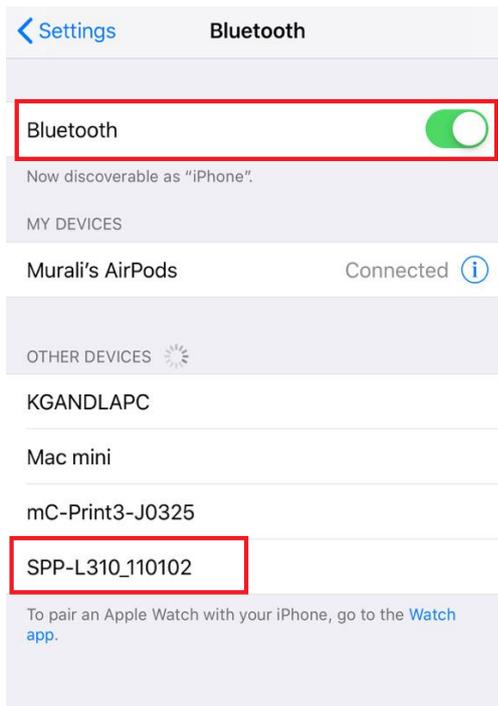

**Step1:** Turn ON Label printer by pressing “Power” button

**Step2:** On the IPAD go to Settings → Bluetooth

- a) Turn Bluetooth ON
- b) Under my or other devices you should see something like “SPP-L310\_XXXXXX”, if so select it.

## Label Printer Setup and its connectivity with DolphinPOS APP

**Step3:** enter the Pin number has **0000** and hit the option “pair”, now your device will be connect to the label printer and you can see status “green LED” blinking on the label printer, which means we are ready to use with IPAD.

**Note:** label printer can be connected to only one device, if you want to connect it to second one; you need to un-pair it with the 1<sup>st</sup> device.

Item Label

Product Name: 5 star

Label Print Qty:

### Step4:

Select “Change Design” button and you should see below screen.

The screenshot shows the 'Label Sizes' configuration screen. It is divided into three main sections:

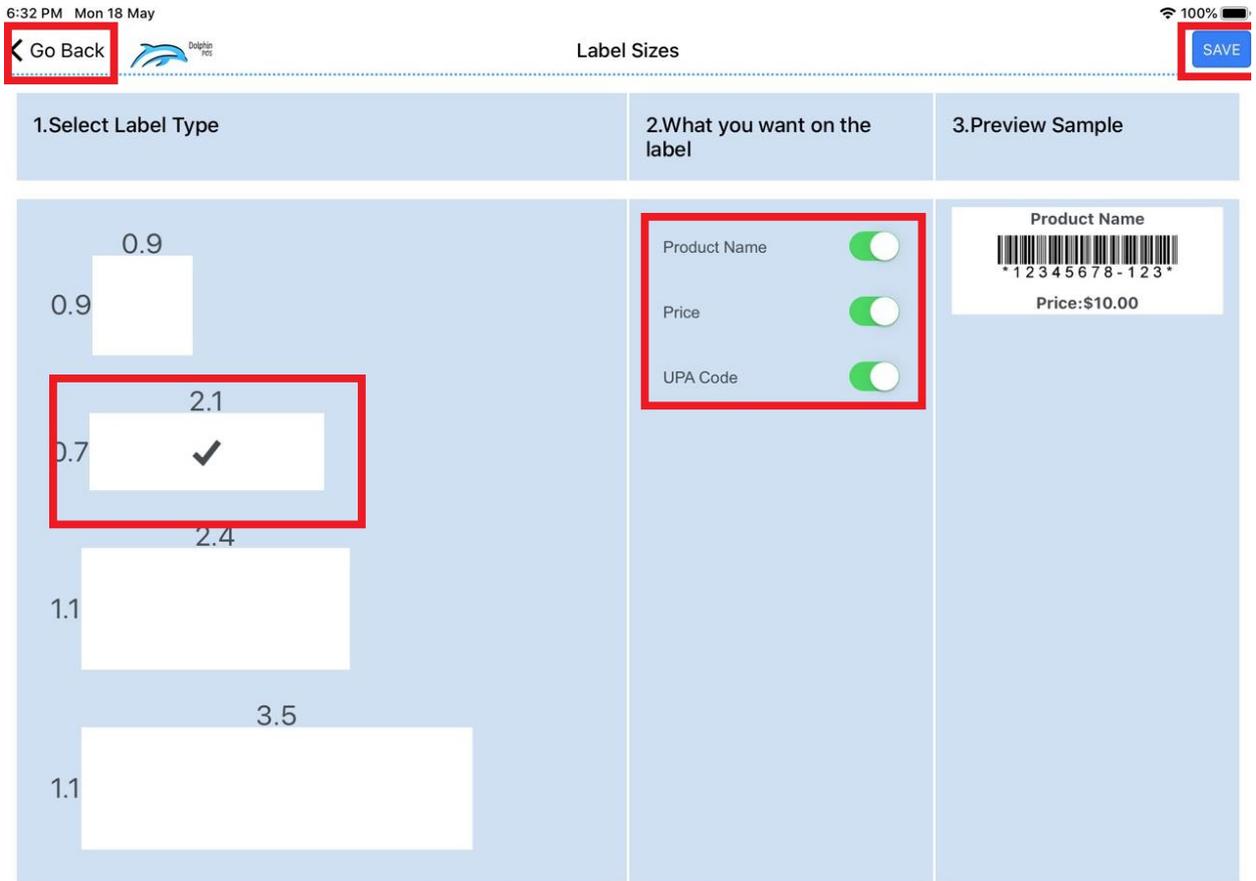

- 1. Select Label Type:** Displays four label size options with their dimensions:
  - 0.9 x 0.9
  - 2.1 x 0.7
  - 2.4 x 1.1
  - 3.5 x 1.1
- 2. What you want on the label:** Contains three toggle switches:
  - Product Name:
  - Price:
  - UPA Code:
- 3. Preview Sample:** Shows a preview of a label with a barcode, the text 'Product Name', and 'Price:\$10.00'.

Navigation buttons include 'Go Back' (top left), 'SAVE' (top right), and the 'Dolphin POS' logo (top center).

### Step5:

- i) Select the label size in inches( max width and height in inches are listed in above snap)
- ii) Select What Fields to be printed on label
- iii) View the pre-view label
- iv) Tap “Save” button ( located top right)
- v) Then Tap “go to back” button ( located top left)
